

TRAVEL RISK MITIGATION IN ACTION

Case study

Our analysts identified key indicators of deterioration in Burkina Faso and assessed the likelihood for political instability to lead to violent demonstrations in the capital Ouagadougou. We were able to advise clients ahead of time to move to hotels outside the city centre. After one violent demonstration, a crowd looted several hotels, while our clients remained safe in accredited accommodation and were able to conduct business face-to-face with local partners.

BENEFITS

Our **integrated solutions** enable companies to make the right decisions for their **travellers' health, safety and security**. Seamlessly integrated with our medical professionals, our **200 travel security specialists** are fully regionalised, enabling us to better understand the geopolitical risk environment in which your business operates.

Our **customised advice and assistance** are based on individual travellers, itineraries and destinations, to **create a safe working environment** and **promote employee satisfaction**.

Preparation is key to our approach to travel security, and is far more **cost-effective** than any reactive measure to a trip.

We partner with **vetted security and logistics providers** around the world to provide **24/7 on-the-ground support**.

We provide **24/7 global travel security support** via our **26 Assistance Centres** and **4 Regional Security Centres** worldwide, making us a **preferred service provider** for personal security and medical emergencies.

TRAVEL SECURITY

INTERNATIONAL
SOS

Control Risks

Our integrated solution enables you to make the right decisions for your people's **health, safety and security** — before, during and after they travel.

ASSESS

Understand your risks and prepare accordingly

- **Policy framework and plans** integrated to actively mitigate your risks.
- **Thought leadership** on developing trends and evolving risks so effective decisions can be made.
- **Training** to suit every individual.
- Your travellers briefed on local conditions to ensure they are fully **prepared** as part of your **risk assessment** responsibility.
- **Approval and compliance** made easier for your travellers and teams.

ADVISE

Local expertise and advice 24/7

- Make **timely and informed decisions** based on a clear understanding of the event, how it may develop and your exposure to it.
- 24/7 access to medical and security specialists with extensive local knowledge for **effective advice**.
- Monitoring of travellers' trips, alerting them and you to specific situations. **Immediate communication** with those who may be impacted.

ASSIST

On-the-ground support should you need it

- Practical, hands-on medical and security **support and assistance** anywhere in the world.
- Trained teams rapidly deployed to **assist you**.
- Integrated **security and medical** response.

WHY IS OUR INTEGRATED SOLUTION DIFFERENT?

We understand that you need more than just information. Our in-house experts use media and on-the-ground sources to gather and assess real-time issues that are relevant to you.

This analysis and actionable advice is focused on keeping your people safe and productive and ensuring that business disruption is kept to a minimum.
