WHAT IS eLEARNING?
Taking a proactive approach to preparing employees before travel is an essential part of any travel risk management plan, as well as a legal requirement in many jurisdictions.

The International SOS Travel Risk eLearning catalogue includes:

- Different topics for the various risks employees may face when travelling
- Features real-world travel risk scenarios travellers may face
- Delivered through a user-friendly Learning Management System which hosts and tracks user progress
- Courses take between 15 – 30 minutes to complete

PANDEMICS & OTHER GLOBAL HEALTH THREATS
This eLearning looks at various global health threats such as Ebola, Zika, bird/swine flu and MERS-CoV. It raises awareness about how a pandemic can spread and how to prepare and respond.

ZIKA
Key facts about Zika are addressed including awareness, prevention, before and after travel as well as manager and company Duty of Care.

MALARIA
Topics focus on the ABCDE of malaria:
A - Awareness
B - Bite prevention
C - Chemoprophylaxis
D - Diagnosis and treatment
E - Emergency Stand-By Treatment kit

KEYS
- eLearning
- Face-to-Face Workshop
- Virtual Classroom
