

**Critical to pandemic preparedness is minimizing the spread of the disease while managing employee concerns. Pandemic Influenza Online Learning provides employees with doable, protective measures they can take to reduce infection rates.**

Your organization's ability to limit infections in the workplace will depend on the full cooperation of your employees. International SOS' Pandemic Influenza Online Learning offers you:

**Practical training and advice.**

Employees gain skills to reduce infection rates and to correctly implement your organization's pandemic plan.

**An easy-to-access, web-based training tool.** Employees can complete the course at their convenience—at home, in the office or while travelling.

**A cost-effective, efficient solution.** On average, online education is 3x more cost effective than live training. Our solution is efficient and can be implemented in days.

**Subject matter expertise.** The medically-based course, developed by our public health experts, is presented in an engaging format to facilitate learning.

**A solution to mitigate risk.** Helps your company satisfy a critical component of pandemic planning—employee education and awareness for duty of care.

**A key component of corporate social responsibility.** Educating your workforce helps reduce the medical and economic consequences of pandemic influenza.

**Multimedia lessons cover pandemic concerns:**

1. Introduction to pandemics
2. Staying healthy
3. Personal hygiene
4. Cleaning
5. Personal Protective Equipment (PPE)
6. Keeping your distance
7. What to do if someone is sick
8. If you have contact with a sick person (contact tracing)
9. If a doctor is not available

**Influenza H1N1 (swine flu) module**

- What is influenza H1N1 (swine flu)?
- How is it spread?
- How do you become infected?
- What are the symptoms?
- How severe can it be?
- What to do if you think you are infected
- How to protect yourself

**Reinforcement materials**

Posters and briefings align with the online learning course content. Materials can be posted around the workplace to reinforce key messages on proper hand washing, safe food handling, and hygiene in a pandemic.

**Why choose International SOS**

As the leading provider of medical assistance, international healthcare and security services, International SOS has over 20 years experience in helping companies manage the health and safety of their employees. Since 2005, our medical specialists have researched and monitored the risks, consequences and mitigation factors of a flu pandemic. As a leading consultancy in pandemic preparedness, International SOS works with organizations to enhance their planning and risk management efforts.
